

FORWARD MOVE ON THE REBELS

Troops Met with Little Resistance.

SEVEN KILLED; THIRTY-FOUR WOUNDED.

A Call For 35,000 Volunteers Will Probably Be Issued in a Few Days Under the Army Re-organization Bill, Increasing the Army to 100,000—Two Pennsylvanians Badly Wounded—Last Night—Scores of Bodies of Filipinos Lying in the Road From Manila to Marilao, Also Many in the River.

Washington, March 29.—[Special]—The following was received from General Otis this morning:

"MacArthur's advance yesterday was only to the outskirts of Manila. It took until late in the afternoon to repair the railway bridge and send cars through with supplies. Commencing the march this morning, it will be rapidly on to Bacara and will continue on to Biga, seven miles from Malolos. The enemy has destroyed railroads and telegraph lines. A construction train is following our forces. The enemy's resistance is not so vigorous today, and our loss thus far is slight. The towns in front of our advance are being destroyed by fire. Troops are in excellent spirits."

Washington, March 29.—[Special]—Gen. Otis reported this morning two killed and three wounded in yesterday's engagement. He also reported that troops are in no need of supplies.

MAC ARTHUR REACHES BIGA

Now Practically in Sight of Filipino Capital.

Manila, March 29.—[Special]—MacArthur's troops have reached Biga. They are now practically in sight of the Filipino capital. Our losses today were four killed and thirty wounded.

The troops ate dinner at Biga. A start was made this morning, when the enemy appeared in force and opened a fire on the Americans. An order to charge had scarcely left the lips of the officers before the whole line was rushing on the Filipinos.

The latter could not withstand the fierce assault, and were driven across Bocave river with severe losses.

Twenty-nine were killed in the front of the Pennsylvania regiment alone and other regiments engaged did equally effective work.

The men of the First Nebraska performed a remarkable feat during the engagement. They swam the river under the fire and did much to disconcert the enemy.

Bocave was captured at 8 o'clock this morning and a second advance on Biga immediately.

Biga was taken without a shot being fired, the enemy fleeing at the approach of Americans.

The troops are eager to attack Malolos and it looks as if that place would be reached tomorrow.

A number of prisoners were taken, who say the leaders alone prevent the Filipinos from surrendering.

A CALL FOR MORE VOLUNTEERS

Thirty-Five Thousand Will Be Asked For in a Few Days.

Washington, March 29.—[Special]—A call for thirty-five thousand volunteers will probably be issued in a few days. This will be under the army re-organization bill and will increase the regular army to 100,000 and will mean a release for the volunteer regiments yet in the service.

Washington, March 29.—[Special]—That the administration intends to pursue the Philippine war to a finish, was emphasized here today, by the intimation that the president will call for thirty-five thousand volunteers.

The Filipinos are proving a harder proposition than anyone here expected. Their stubborn resistance to advance of the American troops and their personal bravery is gaining the admiration of army officers.

Reports received here assert that the Filipinos are moving their capital to San Fernando, ten miles north of Malolos.

MACARTHUR PRESSING FORWARD

Pushed Ahead Three Miles Driving Rebels Beyond Bocave.

Manila, March 29.—[Special]—MacArthur's division still continues to advance. At ten this morning he had pushed ahead three miles, driving the rebels beyond Bocave.

His troops met with little resistance. Two Pennsylvanians were badly wounded last night while the Filipinos were firing volleys to ascertain our position. Scores of bodies of Filipinos are lying in the road from Manila to Marilao, also many bodies are in the river.

Manila, March 29.—Information has reached here that indicates the insurgent capital has been moved from Malolos to San Fernando.

The insurgents burned Bulacan, and marines are patrolling Malabon. One hundred and fifty prisoners have been brought into Manila.

The monitor Monadnock shelled Las Pinas, south of the city. The lines are being strengthened at Pasay and some

aring is going on in the vicinity of that place.

When Gen. MacArthur's force encamped Monday night the Third artillery was across the railroad bridge in Marilao, and the Nebraska regiment in the woods on the extreme right. The other troops had not gone across the river.

At 5:30 o'clock the insurgents appeared on the edge of the woods, a mile and a half off. They deployed in a skirmishing line about a mile long and advanced on the Kentucky men, swinging to the left to drive the Third artillery from the bridge.

This was the first time in the present war that the insurgents had advanced in military order against our forces. The Kansas volunteers promptly crossed the bridge in columns of fours to give support to the Third artillery. They lost two men killed and some wounded in their advance.

At the same time the First Montana regiment crossed the river on a pontoon bridge and took position on the extreme left, so as to be able to cut in back of the insurgents if the latter came far enough. They lost six men wounded in this movement, while the Third artillery had two sergeants and one man killed and two wounded.

Masked by the woods, the Nebraska volunteers were not seen by the enemy. They suddenly opened a flank fire on the insurgents' line and left their trenches with a great shout. At the sight of them the whole insurgent force, officers and men, fled pell-mell. The Nebraska men chased them a mile and a half, but were finally drawn back by Gen. MacArthur to preserve the line intact.

Scouts reported that about two regiments of insurgents were seen to come down from the country above by train and move toward our right.

Aguinaldo Talks of Surrender.

Manila, March 29.—Gen. MacArthur was under heavy fire yesterday. The prisoners say Aguinaldo has declared that if the Americans can take the Filipino capital he will surrender.

Gen. MacArthur and his army are resting on the plain beyond Marilao, after three days' scrambling in the brush, fording rivers and charging trenches in the blazing sun. The men are tired out, but are in splendid spirits.

On approaching Bulacan, a town of 25,000 people, he halted, preparatory to attacking it.

The heat was intense. Being 90 degrees on the coast and fully 100 degrees in the interior, it made the Americans suffer a great deal. In spite of the heat, however, every man was eager to proceed toward the enemy.

The engineers are repairing bridges, the rebels having failed to destroy the iron work, and the railroad is kept busy hurrying supplies to the front.

The country to Malolos is level, with occasional streams and patches of wood, but there are no more jungles.

The American line is about 1,200 yards from that of the rebels.

The American reports show that twenty men were killed and sixty-one wounded on our side Monday. The Dakota regiment lost ten men killed and thirty-seven wounded.

The Filipino prisoners declare that the rebels have lost all taste for fighting and that their officers have to keep them in line by beating them with swords.

One of the most brilliant and costly achievements of the campaign was the charge of Maj. Howard's battalion across the river. Advancing at double quick, they found the river beneath them and splashed across with a yell, swimming and wading, with bullets splattering in the water, and rushed upon the rebel trenches. Ten men were killed and eleven wounded in the charge.

WOULD SURRENDER TO DEWEY

Filipinos Won't Negotiate with Otis, Their London Agent Says.

London, March 29.—The London agent of the Filipinos has gone to Paris with Losada, one of the recently arrived representatives of Aguinaldo, to confer with Agoncillo. Before his departure the agent said that Aguinaldo was willing to accept autonomy similar to that of the British native Indian states, which are nominally self-governed under British control. The religious question, he said, was one of the principal incentives to the rebellion of the Filipinos, who believe that the Americans will confirm and approve the Spanish monk system of squeezing contributions out of the peasantry.

The Filipinos, he added, were willing to negotiate terms of surrender with Admiral Dewey, but never with Gen. Otis.

Campaign Pleases McKinley.

Washington, March 29.—President McKinley, on his return from his two weeks' vacation in the south, was anxious for latest news from Manila, and while concerned for the safety of the troops pursuing the insurgents, he expressed himself as well satisfied with the campaign that has been made by Gen. Otis. There is no ground for the report that the war and navy departments are uneasy over the situation and that Admiral Dewey has cabled for more ships and men.

Transports Coming Home.

San Francisco, Cal., March 29.—The quartermaster's department will be in a position to send about 6,000 soldiers to Manila within the next month. Seven transports are now on their way here, and the whole fleet should be in northern ports in three weeks.

SUM OF \$260,000 WAS APPROPRIATED

IN BILLS WHICH PASSED THE SENATE.

Largest Item Is For New Engineering Building, Addition to Dairy Building and Water Tower at State University—To Create an Interest in Exhibit at Paris Exposition.

Madison, Wis., March 29.—[Special]—About \$260,000 was appropriated in the bills which passed the senate this morning. The largest item is for a new engineering building, addition to dairy building and a water tower at the state university, \$151,000 in all.

The appropriation to the free high schools of the state was doubled from \$50,000 to \$100,000, and \$35,000 was appropriated for additions to the state veterans' home.

The bill taxing non-resident ice shippers ten cents per ton on ice shipped out of the state, passed the senate. Senator Reynolds alone voting against it.

A resolution was adopted in assembly allowing Assemblyman Vanderhook to introduce a bill appropriating \$25,000 for a new executive residence. The Emery wheel bill was reported for passage.

Speaker Ray will introduce a resolution asking the governor to appoint a committee of fifteen to interest the state in making an exhibit at the Paris exposition.

The assembly ordered to a third reading the substitute for the Orton bill, taxing the Northwestern Insurance company, of Milwaukee, about \$220,000 instead of \$35,000, as at present, after voting down two amendments, one making the tax \$120,000 and the other \$175,000.

Madison, Wis., March 29.—The four bills taxing express, sleeping car, freight line and equipment companies passed the assembly Tuesday. The taxation will be based on the entire property and business of the corporations in the state, compared with that of the outside, and will add materially to the state's revenues.

After a long debate the assembly recalled and sent to third reading the bill taking the appointment of water registrar of Milwaukee out of the mayor's hands and putting it in the hands of the board of public works. It is a partisan measure.

The McGrath bill giving a bounty of one cent on beet sugar produced also went to third reading.

The Humphrey, two-cent railroad passenger fare bill went over till Thursday.

The Welton bill, reorganizing the Wisconsin National guard on the regular army basis, was passed by the assembly and now goes to the governor.

The anti-pass bill was at the head of the senate calendar, but on motion of Senator Roehr it was laid over till Thursday morning. He explained that the resolution for an anti-pass constitutional amendment is still in the hands of a conference committee, which has not reached an agreement, and that the bill should conform to the resolution, in which some changes were probable.

Senator Mills offered an amendment to the bill providing that it shall not repeal the statute which requires the railroads to carry the railroad commissioner free when in the discharge of his official duties. The amendment was laid over with the bill without action.

ACCESSORIES OF WORSHIP.

Manner in Which Incense, Relics and Offerings Began.

The use of incense in churches was forbidden as a heathen custom till the fifth century. The use of holy water was equally denounced as a practice of the pagan priests of Rome and of the ritual of Isis. The asperging of Julian in Gaul by a priest is perhaps the earliest instance of the introduction of this corruption, which became a source of superstition in the fifth century, says Blackwood's Magazine. The wonder-working power of the relics of martyrs began to be believed toward the close of the fourth century and almost immediately after we find complaint made of the sale of forged relics, both in the east and in the west. The sale of relics was forbidden by Theodosius, yet they constantly increased in numbers and in importance until the holy table was converted into an altar to hold them. In the fifth century also ex voto offerings began to be hung on church walls—a custom which was of heathen origin. The use of lights, which, as above said, was forbidden in the second century in the daytime, crept in in the fifth century. The Mithraic altars had much earlier supported candles, but these may have been necessary in underground chapels. Jerome wrote that it was slanderous to say that wax tapers were burned "in clear light," but Paulinus of Nova, in 307 A. D., so decorated his church on festivals.

No Report of Hale's Injury.

Washington, March 29.—Gen. Otis has made no report of the wounding of Gen. Hale, which was reported to Denver.

CUSHMAN TO MANAGE CLUB AT GREEN BAY

UMPIRED IN WESTERN LEAGUE LAST YEAR.

Charles H. Cushman, the Man o' Base Ball Fame, Has Decided to Accept the Offer—Green Bay in the State League—New Manager Now Ill at His Home.

Milwaukee, March 29.—[Special]—Charles H. Cushman, who has a national reputation in baseball circles and who umpired very successfully in the Western League last year, and who has managed clubs all over the country, has decided to accept the offer to manage the Green Bay club, which is in the newly organized Wisconsin State League. Green Bay enthusiasts feel highly elated over his decision and expect to take high rank in the outcome of this season's contests. At present, Cushman is quite ill at his home, but his condition is not of a serious nature however.

BANKING BY MACHINERY.

Device Which Does Most of the Work of the Teller.

A remarkable machine is in operation in a bank in an eastern city. The machine is described by the president of the bank as being like a double-entry system of bookkeeping, making error practically impossible. It records every payment received and made during the day, and it enables the bank clerks to strike in five minutes a trial balance of the accounts of the 67,000 depositors of the bank. The machine stands on a table at the right hand of the teller. It has a keyboard with rows of figures arranged like the letters on a typewriter. When a deposit is made the teller places the depositor's book under a cylinder filled with movable figures on the side of the machine. He then pulls the figures on the keyboard that represent the amount of the deposit. These figures are connected by wires with the figures on the cylinder. The machine is then set in motion by the movement of a lever. The amount of the deposit is printed on a tape locked in a box placed just above the cylinder. A double entry is thus made. The teller can not make a mistake that will not be detected, for an ingenious contrivance attached to the machine prevents it from working and gives instant notice if any error is made. After the depositor's book and the bank tape have both received their entries another cylinder begins to move. This cylinder, in the middle of the machine, contains movable figures, running up into millions, which tell the total of the bank's receipts since it was organized, and the amount of the last deposit is added to it. When the day's business is ended the officials of the bank add together the totals registered on the two receiving machines; deduct from them the total registered on the paying-out machine, and strike a trial balance in a moment. The three machines necessary for the working of the system are inclosed in glass cases, so that every part can be readily seen.

England's Biggest Man Is Dead.

"The biggest man in England" has just been buried at Guilden Morden, Cambridgeshire. His name was John Sanderson. He was 39 years of age, weighed thirty stone, was 5 feet 11 inches in height, and measured across the chest and shoulders nearly three feet. He was a familiar figure in his carrier's cart, in which he drove to and from Royston and other towns, and also at village feasts, attending his stall. Some time ago he visited a show where the "fattest man in England" was on view, and created much amusement by showing unmistakably that he was the bigger man of the two. He died in Addenbrooks' hospital, Cambridge, and when the coffin containing his remains was brought to Guilden Morden for burial the window of the house had to be taken out to enable the coffin to be got in and out of the house.—London News.

Where It Is Really Cold.

A recent Siberian traveler narrates: "At Sadonsk in the intensely cold nights the silence was sometimes broken by a loud report as of a cannon. This was the bursting of one of the ice bubbles on the river, a phenomenon I had neither heard nor read of before. The streams coming down from the hills were frozen on the surface some six to nine inches thick. The water beneath flowed faster than it could escape, and the pressure, on the principle of a hydraulic press, became irresistible. First, the elasticity of the ice was seen by the rising of circular mounds some six to eight feet in diameter and from four to five feet high. The bursting point came at last with a report like an explosion. The water escaped, but soon froze again. I have seen scores of these ice hillocks in a few weeks of the river."

Value of Walnut.

Fifty walnut trees in Cass county, Mich., were recently sold for \$10,000 cash. These trees have now been felled and will be shipped to English buyers. The largest tree was seven feet in diameter at its base and will yield lumber worth from \$700 to \$1,000.

NEW RINGS.

The Duchess and Princess Successors to the Marquis.

The fashionable rings at the present moment are the duchess and the princess. The former consists of three good-sized pearls, turquoise or other precious stones, set in a row and surrounded by small diamonds, says the Louisville Dispatch. The princess is like this, but contains five stones or pearls in a row set in diamonds. The banquet or dinner rings are a variety of cluster rings and are of no set design. They vary considerably in value and in richness of setting. Turquoise lend themselves effectively to the sparkle of diamonds and are therefore popular, while the iridescent fires of the opal make it to be beloved in spite of superstition. The solitaire diamond, symbolizing purity, is as greatly in favor as ever for engagement rings. More solitaire diamond rings are sold for engagement tokens than any other, though there are and always have been instances where lovers insist on having with the diamond a sapphire to express constancy, a pearl for innocence, or some other stone expressive of a sentiment. Among the newest settings shown this season are solitaire emeralds, rubies, sapphires and other stones, with three small brilliants imbedded in the shank of the ring on either side of the stone. The light reflected from the brilliants brings out the color of the central stone and adds to the beauty of the ring without adding greatly to its cost. Hoop rings continue in favor. They have from four to eight or ten stones set in a row around the band, usually very narrow, so that three of these hoops can be worn with good effect. The correct wedding ring is a plain beveled ring of twenty-two-carat gold, which is as nearly pure gold as is practical to manufacture. A new ring that is finding favor with some brides-elect is a narrow carved gold band, with small colored stones imbedded at intervals. It is pretty, but the plain gold ring is not likely to be ousted from favor by it. An interest in heraldry accounts for the fancy which has led to the revival of seal rings, gold, however, taking the place of the engraved stone. Many ladies wear small gold seal rings with the family crest, and a dainty little ring of this description has the seal fashioned in heart shape, with delicately modeled female figures on either side of the tapering shank.

Troubles of New Cuban Party.

New York, March 29.—A dispatch to the Tribune from Havana says: "The projectors of the new patriotic Cuban party, which was to have alliances with neither the Gomez nor the anti-Gomez wing of the original revolutionists, are rather discouraged at the outcome of the meeting at the Payret theater, at which the birth of the new organization was to be celebrated. Partisans, both of Gomez and the assembly, were on hand, and confusion marked the proceedings at every stage. It was decided, however, to complete an organization by wards in Havana to prepare the people to vote intelligently at the elections to be held this summer for a constitutional assembly."

PLEASANT AFTERNOON WITH THE MADONNAS

THREE PLEASANT EVENTS ENJOYED BY MANY.

First of a Series of Missionary Rallies Held at the Court Street M. E. Church—Golden Wedding Anniversary of Mr. and Mrs. Benjamin R. Hilt at Masonic Hall.

Yesterday afternoon, Mrs. Walter Helms entertained the members of the Janesville Art League in a most pleasing manner at her home, No. 213 South Main street. It was in the nature of a study which is being pursued by the League and yesterday afternoon was with the Madonnas, large collections of copies being on exhibition. A comparison of the works of art occupied about an hour while the guests assembled, after which an entertaining program was rendered.

Mrs. Minnie Menzies read extracts from the life of Raphael, Mrs. N. W. Edden and Mrs. Helms gave some readings from Browning and Mrs. J. S. Fember read some traditions concerning the Madonnas of Capocroce. After rendition of the program, an appetizing luncheon was served, the tables being prettily decorated with cut flowers. During the serving of the luncheon several selections were rendered by Miss May Treat, piano, and Oscar Servatius, violin.

Talks About Foreign Lands. Last evening at Court Street M. E. church, Rev. O. P. Cristian, of Footville; Rev. W. W. Rollins, D. D., of Evansville, and Rev. William Dawson, of Richmond, delivered interesting addresses on the question of foreign missions. Rev. W. A. Hall, pastor of Court Street church, had charge of the exercises.

Rev. Christian, of Footville, was the first speaker, and devoted his time to an interesting talk on Japan, giving many facts concerning that land and told of its needs in the way of christian education.

Rev. Rollins, D. D., of Evansville, gave a very able talk on Africa. The speaker gave a very interesting description of the country, which was interesting indeed. He stated that opportunities were now open for grand achievements in missionary work and he hoped the people of this country would do their part.

Rev. Dawson spoke on China, referring to the great work to be done by christian men and women, and said the day was coming when the English language would be spoken in all the great nation be converted to God.

The musical portion of the program was a feature of the evening, which included a well rendered selection by the church choir, "Soft Floating on the Evening Air," a selection by the Y. M. C. A. male quartette, and a contralto solo by Mrs. Leroy C. Hedges, "My God, My Father, While I Stay." Miss Ada Ford presided at the organ.

A rally will be held at Janesville this evening, and Rev. W. A. Hall will speak, also at Footville Friday evening.

Golden Wedding Anniversary. Last evening at Masonic hall, Mr. and Mrs. Benjamin R. Hilt stood before the altar, both renewing vows taken by them half a century ago, and kept by them during those long years down the pathway of their earthly pilgrimage.

No bridal party ever looked more happy than did Mr. and Mrs. Hilt last evening as they entered Masonic hall, escorted by Mrs. W. W. Wills, president of the W. B. C. and S. C. Burnham, commander of the G. A. R. The happy couple were greeted by more than three hundred of their legion of friends who joined in singing that song so familiar, "Marching Through Georgia." There were many happy surprises in store for the well known couple, but the first was that of being met at the altar by Rev. W. H. Thompson, of Fond du Lac. Details of the golden wedding anniversary were under the auspices of the several societies of which Mr. and Mrs. Hilt are members and the grand affair of last evening is only a slight testimonial of the esteem in which they are held.

James A. Fathers, chairman of the general committee, had charge of the exercises and after urging the advisability of rebinding the couple, he gave them into the hands of Rev. Thompson, who performed his duty in a happy manner. Rev. Thompson then offered prayer, after which he presented the groom with a handsome Grand Army badge, the gift of W. H. Sargent Post No. 20, G. A. R., and Mrs. Hilt with a

gold past officer's badge, presented by W. H. Sargent W. B. C. No. 21. Mr. Hilt was somewhat overcome but soon recovered himself and made a very able speech.

Later, Rev. Thompson presented Mr. and Mrs. Hilt with a purse of fifty dollars in gold, as a token of esteem of their friends in the other fraternities. Mr. Hilt responded with interesting remarks.

A wedding feast was served in Liberty hall and the long tables at which 150 guests could be seated, were very attractive in appearance. Palms and cut flowers formed the table decorations and there was a supply of dainty things to eat prepared by the ladies of the several societies. The wedding party consisted of Mr. and Mrs. Hilt, their three daughters and Rev. Thompson, Mr. and Mrs. Hilt not knowing that one of their daughters was in the city until seated. At their table was the bride's cake, a pyramid cake with the Masonic, Odd Fellows and Grand Army emblems on the sides in yellow. The dates 1849 and 1899 were also in yellow and the cake rested on gold paper. Near by stood the groom's cake, a mammoth pyramid ornamented with small flags.

The committee of arrangements for last evening's memorable event was as follows:

Why Women Are Nervous. [British Medical News.]

The frequent cases of nervous prostration or utter collapse of the nervous system under which women "go all to pieces," as the saying is, have caused much thought and investigation on the part of physicians.

Certain inorganic substances are well known to cause various forms of nervous diseases which are readily traced to the poisons producing them. Further research leads to the belief that alum is a prevailing cause of so-called nervous prostration, for the symptoms it produces on the nervous system after its absorption into the blood are very remarkable indeed. Experiments physiologically made upon animals by Orfila, Professors Hans Mayer, Paul Seim and others, show that alum frequently produces no visible symptoms for many days after its introduction into the body. Then follow loss of appetite and other alimentary disturbances, and finally a serious prostration of the whole nervous system. The most prominent physicians now believe that "nervous prostration" and many affections of the nerves from which both men and women suffer are caused by the continued absorption of alum into the system.

It is probable that many medical men are unaware of the extent to which salts of alumina may be introduced into the body, being under the impression that the use of alum in bread is prohibited. Alum, however, is still used surreptitiously to some extent to whiten bread, and very largely in making cheap kinds of baking powder. In families where baking powder is generally used great care should be exercised to procure only those brands made from cream of tartar. The alum powders may generally be distinguished by the lower price at which they are sold.

A FIRE AT JOHNSTOWN CENTER

Home of John Malone Burned Saturday Afternoon, Together with Contents.

Johnstown Center, March 28—Saturday afternoon John Malone's house burned to the ground, and none of the contents were saved, the family all being absent, except a little girl. All that was mortal of Mrs. Hiram Williams, of Chicago, was laid to rest in the cemetery at this place Monday, March 20. G. M. Chandler, Silas Locke and P. J. McFarlane attended the M. W. A. meeting at Richmond, Saturday evening. The late snow storm made sleighing possible, and for the last few days sleighs have been flying around quite briskly. The Modern Woodmen met last Saturday night. Miss Elsie Walker has gone to Edgerton. Charles Stoller does not improve as rapidly as his friends would like to have him. James Plumb was in Milton Junction, Wednesday last. Mrs. G. M. Chandler has returned from a week's visit with her parents at Turtle Lake. Report says F. O. Hall is to erect a fine new house soon.

THE LATEST NEWS FROM BADGERDOM

ONE OF THE RACINE STRIKES SETTLED.

Compromise Agreed Upon Between Beebe Manufacturing Company and Employees—Michael Reardon, of Racine, Attempts To Kill His Brother—Attempted Suicide at Sheboygan.

Racine, Wis., March 29—The strike at the Beebe Manufacturing company has been settled. J. F. Mulholland, president of the International Union of Bicycle Workers and Allied Mechanics, with a committee of strikers, held a conference with Charles Beebe and William M. Lewis, officers of the company, today, and a compromise was made. The men will resume work tomorrow morning. Mr. Mulholland said that an agreement had been reached between the company and the International union that all men are to be returned to work and no discrimination is to be shown. The wages agreed upon are not stated, but will hold good the rest of the year. About seventy men were affected by the strike.

James O'Connell, grand master machinist of the International association, who came to settle the trouble at the J. I. Case T. M. Co., held a conference with the officers of the company today, but an agreement could not be reached. Mr. O'Connell says there are three or four men whom the company do not want to reinstate. It is a written law of the labor organizations that when they go on a strike that they rather lose than submit to discrimination. While the strike lasts married men are to be paid \$8 per week and single men \$6.

Rather than settle on the basis the company ask Mr. O'Connell said that all of the men out would be sent to other cities where they can get as good if not better positions than here. However, he hopes that a settlement can be made soon.

Attempted to Kill Brother

Racine, Wis., March 29—Daniel Reardon entered the saloon of his brother, Michael, last night and attempted to kill him. He struck and cut his intended victim with plates. It required three policemen to remove him to jail. He was released from jail this morning, where he had served thirty days on the charge of assaulting his mother. The assailant has one leg and was drunk when the assault was made.

Will Go Into Brick Combine.

De Pere, Wis., March 29—A meeting of brick manufacturers and promoters of the Fox River Valley Brick and Tile company, which is about to absorb the various yards, was held here. Seventeen yards were represented in person or by proxy. All agreed to take stock in the new company, or about one-half of the capital stock, which is \$200,000. All agreed also to extend the options, some of which had expired, until April 8th.

Smallpox Nearly Stamped Out.

Appleton, Wis., March 29—Dr. Ellsworth has begun the fumigation of the Drexler house and the house on West College avenue. It is expected that the quarantine can soon be raised from both places. This only leaves one smallpox case, that of Louisa Otto; although the Bero home is still quarantined. The father and mother of the girl are not sick, however.

Wisconsin Pensions Granted.

Washington, D. C., March 29—Original—John A. Uelman, Kewaskum, \$8; Peter Clemons, Prescott, \$6; William Woodard, National home, Milwaukee, \$6. Increase—Ahira F. Botsford, Racine, \$6 to \$12; George Robinson, Shortville, \$8 to \$14. Original widows, etc., Anna E. Cannon, Loyal, \$8.

New School Building For Racine.

Racine, Wis., March 29—Contracts were awarded by the board of public works today for two school houses to cost between \$40,000 and \$50,000, one in the Fourth and the other in the Sixth ward. School bonds amounting to \$33,000 are to be sold April 12 for this purpose.

Appleton's Public Library Block.

Appleton, Wis., March 29—Architect Herman Wildhagen has completed the detailed plans for the public library building. If they are accepted the city clerk will advertise for the bids and the plans will be placed on exhibition for the use of contractors.

Attempted Suicide at Sheboygan.

Sheboygan, Wis., March 29—Ethel Leroy attempted suicide this morning by jumping in the river. She came here from Madison about two weeks ago and became an inmate of a well-known resort.

New Wisconsin Postoffice.

Washington, D. C., March 29—An order was issued establishing a postoffice at Woodside, Kewaunee county, with Moses Shaw as postmaster.

PLEASANT SOCIAL AT RICHMOND

Report That Son of Louis Johnson, Is At Point of Death.

Richmond, March 28—The Ladies' Aid society held their social at Clark Harris' March 23. Quite a large number attended and the evening was passed with much pleasure with the exception of Arthur Stewart, son of James Stewart, who was taken suddenly ill upon his arrival, and had to return home. It is reported that the eldest son of Mr. and Mrs. Louis Johnson is at the point of death with pneumonia, as Dr. Hanover, of Delavan, has given up all hopes of his recovery. Miss Clara Daly, sister of Mrs. Johnson, arrived Friday night, to offer what assistance she could render, as she is a trained nurse in Chicago. Our snow of Saturday night must certainly be a benefit to winter grain and clover, new seeding especially if it is not already killed. It has been a very hard

winter on it; and the prospects for a large hay crop as well as everything else, for the coming season, are very light. As an open winter with the ground frozen to the depth of six and seven feet is very hard on land, especially in the openings. "Little Gus" as he is called, is raising havoc with his engine and saw in this vicinity. We are glad to know that Miss Pratt has been engaged to teach the spring term in this district. H. Calkins is confined to his bed with a high fever. Mrs. Albert Yerkie, of Johnstown Center, is visiting her parents, Mr. and Mrs. Wm. Osborne. C. H. Lawrence is at present confined to his bed with grip. Mrs. Ole Peterson, of Milwaukee, is out for a two weeks' visit with her parents, Mr. and Mrs. William Osborne.

BOARD OF DIRECTORS MEET

Public Library Board Held Meeting Monday Afternoon.

The board of directors of the public library held a regular meeting Monday afternoon, nine of the directors being present. The special committee, consisting of Prof. Mayne, Mrs. A. P. Lovejoy and Charles L. Fifield, appointed at the last meeting to examine regarding the suggestions recently made to the board by Miss Stearns, made a written report which was adopted. The recommended certain changes at once and others in the future when means are available to carry them out.

One of the changes which is to be put into effect as soon as possible is that of a different method of charging the books. Under the present system the borrower writes his name and the book he desires upon a slip of paper furnished for that purpose. He may have to prepare a number of them on account of books being out. When the book is taken the librarian has to write his card number and date on the slip and date his own card. The slip is filed away until the book is returned. Under the new system the borrower can hand a list of books in written upon anything, he need not write his name or address at all. Each book has a card with the title of the book and blanks for dates, etc. When the book goes out the book card is taken out of the book and the borrower's card number and date written or stamped on it and the date stamped on borrower's card. This book card is filed away as the slip now is, until book is returned when it goes back into the book pocket. This system will be easier for the borrower and the librarian so that quicker service will result. Due notice will be given in the daily papers when it goes into effect.

"The best braces," with no reaction later, is "Orangeine."

GOOD ATTRACTION COMING

"What Happened to Jones" is Strictly Up-to-Date

"What Happened to Jones," one of the liveliest and most hilariously diverting farces of the times, will be quartered at the Myers Grand Monday evening, April 3, with such clever people in the cast as John Allison, E. Soldene Powell, Barry McDonough, Frank X. Hope, Louis Reinhardt, Charles Greene, Cora Williams, Juliet Sager, Helen Harcourt, Eleanor Brodway, Katherine Weston and Maude Allison. The story of "Jones" is one of those narratives that doesn't sound well on paper. The gentleman, who sends a typewritten synopsis of his "attraction" to the hungry critic, is distinctly at a loss when dealing with a farce like this. Its humor must be seen to be savored. Ebenezer Goodly, a professor of anatomy, has been to see a glove contest that has been raided by the police. Jones has also been. Jones is a drummer who sells hymn books and playing cards—one as a steady thing, the other as a side issue. Jones has lost his coat tail in a scuffle with a policeman. To bridge over this damning fact he does the ministerial garb of the bishop of Ballarat. Goodly's brother, who is expected to pay a visit to the Goodly household. Complications with girls, with an amorous spinster, with the professor's wife and with everything and everybody in sight; complications thick, furious and bewildering.

Boub's ALE THAT IS HEALTHFUL

The main difference between good and bad Ale is in the after effects—not the taste. You discover part of that difference. You notice for one thing that pure all Boub's ale—doesn't make you bilious. But the main difference goes unnoticed.

Pure Ale is Good for you; bad ale is unhealthy. Either effect is so gradual you do not know what caused them. Two things are certain. First pure ale is the right ale—purely is more important than you think. Second, Boub's Ale is pure Ale. People who drink it say it is far ahead of any and equal to famous Bass Ale. BONDS, MORTGAGES AND TAXES.

Mayor Thoroughgood, in his signed statement in Sunday morning's Recorder, says: "They [the democrats] have not nominated a man owning government bonds, and collecting interest on mortgages. Every dollar I possess can be seen in active use in this city. Every foot of real estate has its foundation on Janesville soil, and every piece of property is paying its legitimate share of state and city taxes."

Well, what are we to gather from the above? Would the mayor decline to own government bonds, or to collect interest on mortgages, if he had them? Is it a crime to own government bonds and mortgages? And if so, how many of us would be willing to "plead guilty," if we had the chance? Does V. P. Richardson own government bonds and mortgages? We do not know, but if he did, in what way would such ownership affect his qualifications for the office of mayor? And as none of Victor P. Richardson's real estate, which has its foundation on Janesville soil, has ever been sold for taxes, is it not fair to assume that it, too, is paying its legitimate share of state and city taxes? Is Mr. Thoroughgood entitled to more credit, because he pays his taxes, than is any other taxpayer?

If we err in this matter it is through our inability to arrive at a correct conclusion as to what Mr. Thoroughgood means, and we should be glad to be corrected on any point if we have made a mistake.

THE SUPERVISORS.

The office of member of the County Board of Supervisors is an important one, as the city's interests lie wholly with the five men who are elected this spring. C. E. Bowles, of the First ward, Harry Moeser, of the Second, J. L. Bear of the Third, David Stewart of the Fourth, and J. G. Wray of the Fifth are the republican candidates from the various wards. All are well known citizens and men of recognized ability. They should be elected, and then we will know that the interests of the city in the matter of apportioning the taxes, etc., will be well guarded. C. E. Bowles has served on the board, and was a valuable member. Harry Moeser is one of our best known German-American citizens and is a man of recognized business judgment and personal character. J. L. Bear's services as a member of the board are well understood and fully appreciated. David Stewart is one of the leading contractors and builders of the city, and is a man of sterling qualities. Everyone recognizes the fact that J. G. Wray is one of Janesville's best citizens. He has been engaged in the contracting and building business for years, and has the confidence of all. A better lot of men could not have been selected for these important posts of duty.

THE SENTINEL AND DUCKS

The Milwaukee Sentinel has come out in favor of the bill abolishing the shooting of ducks in the spring, but the motive is not quite apparent. Correspondents of the Sentinel have covered the ground thoroughly, and a large majority of them argued in favor of allowing spring shooting. Therefore the Sentinel must know that a large majority of its readers—who undoubtedly reflect public sentiment—are opposed to

a change. People generally have come to suspect the Sentinel of having an axe to grind whenever it presents an opinion these days, and they naturally wonder why, at the late day, The Sentinel should rush to the defense of a bill that the people, beyond question, view with disfavor.

When W. H. H. Macloon enters the arena, it is with the firm determination to stay to the end of the battle. Mr. Macloon is not afraid to show his colors at all times. He is a "fighter" and will not be scared or bluffed. Things must go right, if W. H. H. Macloon is a member of the council, or W. H. H. Macloon's voice will be heard in protest. This fact alone should be enough to elect him, for, as everyone well knows, he would guard the people's interests well.

Victor P. Richardson was once a democrat, but became a republican because of his belief in principles. John Thoroughgood was once a republican but became a democrat because he wanted to be mayor. This is the political difference between the two men. Which one commands your respect, Mr. Voter?

Charles M. Warren should be elected alderman from the fifth ward. He is a man of fine character and splendid abilities, and would make an ideal official. He has resided in the ward for many years and is one of the best known and most popular engineers on the St. Paul system.

Victor P. Richardson stands squarely for republicanism in all that the term implies. He is a believer in republican principles and has not changed front within a few days, and simply for the purpose of getting a nomination for office.

Vote the straight republican ticket. Every nominee thereon is a straight out and out republican, and deserves the full party support.

A CHINAMAN'S FATE.

In San Francisco, Cal., there's a Chinese secret society, the laws of which are as strict and unchanging as those of the Medes and Persians. San To, one of the members of this society, told some of its secrets—an offense punishable by death. He was to be tried in the usual way before a tribunal of the society.

The night of the ordeal was fixed. The culprit was represented by able counsel, but the sentence was death—as was expected. An executioner was called from an adjoining room. He was a strapping big Chinaman, and wore one of those hideous, wooden masks that art critics think so beautiful. He carried a double-edged sword fully five feet long. To test the edge he folded a newspaper in eight parts, and the knife went through these eight thicknesses of paper as if it were a bit of butter in summer time.

The culprit was put upon his knees, and another Chinaman, also on his knees, faced him and caught the traitor by the cue. He drew the culprit's neck toward him, the smock was pulled over the shoulders, and with one mighty swing the double-edged sword descended. Like a flash it clove the air and then stopped. A fractional part of an inch separated the sword from the victim's neck. Very gently, the executioner brought the weapon down until it just touched the traitor's neck; then, as it is a crime

SAN TO.

to kill a man in San Francisco, he stopped. He brought the sword to his side again, turned to the judges and said: "The culprit is dead."

The newly-executed got to his feet and said something to the Judge. The Judge did not heed—for the culprit was dead. He tried to speak to the Chinamen, who were hurrying from the hall. But he spoke to deaf ears. To all intents and purposes he was a dead man.

He made his way into the street and the first thing that caught his eye was a huge poster proclaiming to all Chinamen that he had been executed that evening. No one would speak to him, no one look at him—he was a dead man—just as dead as if the executioner's sword had in reality descended.

For a whole week that man wandered about Chinatown, the posters proclaiming his execution staring him in the face at every turn. Not a crust of bread could he beg—not a mouthful of water. His people knew him as dead—he was past, gone, buried.

And so one day he wandered up into the American portion of San Francisco and stole a revolver from a messenger boy, who was showing it to some companions. Then he ran down into Chinatown, sat down on the pavement be-

neath one of his own death notices and blew his brains out.

DUTIES OF RULE IN INDIA.

Many Tasks for a Viceroy's Tacitful Wife.

Edward Page Gaston thus defines the new duties of Lady Curzon, the wife of the viceroy, of India: "It sometimes devolves upon the wife of the viceroy of India to give an audience to a native maharajah alone, when it is her duty to advance and meet him on the threshold and duly wave him to a seat, after which her American tact prompts her to speak of the satisfaction it is to see him in her home, to inquire after the health of his family and to pay him all the usual compliments of the season. As the ladies of the viceroyalty generally make it understood that they can accept no gifts of value from their subjects the exchange of tokens is confined to photographs. One of the delicate duties of the lady of the viceroyalty mansion is to learn the rules of management governing the native servants, for these have their places as unalterably fixed by caste as persons in higher stations. In the bedchamber service there is not one or two brisk chambermaids to do up a room as in America, but the various items in the almost trifling work are divided among seven or eight men servants, and this is the rule throughout an Indian establishment. Lady Curzon's body servant stands or sleeps outside the door to her room constantly, and when she goes to drive alone another attendant rides in the carriage with her, and at any time would give his life for her protection."

"I carry 'Orangeine' ready to 'head off' colds, headache and nervous exhaustion. It is great."

Pay of Lawmakers.

The lawmakers in Austria and France are paid \$5 a day; in Greece the senators get \$100 a month and the deputies \$50; in Germany members of both houses receive about \$2.50 a day; in Denmark the members of the "Landsting" each receive about \$3 a day; in Belgium each member of the chamber of representatives gets \$35 a month; in Portugal the peers and commons are paid the same sum, which is about \$355 a year; in Spain the members of the cortes are not paid for their services, but enjoy many advantages and immunities; in Switzerland the members of the national council get \$2.50 a day, and the council of states, the lower house, \$1.50; in Italy the senators and deputies are not paid at all, but are allowed traveling expenses. England is the only country where members of parliament are not only unpaid, but have no special rights or privileges.

COURT BALKED BY GERMAN LANGUAGE

THE DEFENDANT SAYS HE IS WEALTHY AND INNOCENT.

When the Karl Bolduan Case Was Called This Morning, Attorneys and Judge Were Lacking in Linguistic Accomplishments—He Says He Is Worth \$6,000.

When the case of the State of Wisconsin vs. Karl Bolduan was called in the municipal court at 10 o'clock this morning it progressed only as far as the reading of the charge when there was a halt. The defendant could not speak or understand a word of English.

Judge Fifield and District Attorney Jackson were in the same position as to German.

All looked wise and said nothing.

When a boy at school District Attorney Jackson was put through a thorough course of German, but the German spoken in the town of Lima and the German spoken in Prussia are very different matters.

After a five minute lapse the district attorney approached the prisoner and with a Koenig Wilhelm der Grasse smile greeted him in German, as she is spoken in the third ward.

The prisoner looked puzzled and shook his head.

Herr Wallace Cochrane was equally unsuccessful.

After several more efforts to strike up a conversation the court grew impatient and sent for H. W. Frick, who came to the rescue as interpreter.

With the aid of Mr. Frick the court learned that the prisoner's name was Karl Bolduan and that he was firm in protestations of innocence.

The defendant is charged with the agency of \$54 in cash and \$250 in notes from Michael Stroebel, on the August Garbrecht farm in the town of Lima, on Sunday, the 19th inst. It is claimed by the witnesses that the money and notes were taken from the pocket of Stroebel's pants in his bedroom while all the members of the family except Stroebel were absent.

A formal plea of not guilty was entered by the defendant. He said he had no money in this country to hire an attorney but that in Germany he had seventy acres of land valued at \$6,000.

Bolduan then sent for Attorney C. C. Russell, who is well versed in German. Attorney Russell asked the court to adjourn the case and by consent it was put over till April 19 at 10 o'clock.

In default of \$500 bail the defendant was remanded to jail.

WINDOW TELLS OF EASTER

Archie Reid & Co. Have Prepared a Beautiful Showing of Spring Millinery.

"The prettiest millinery window ever seen in Janesville," said a score or more of enthusiastic women as they stopped in front of Archie Reid & Co.'s this morning. The big window into which they gazed ecstatically was a dream of violet and white with just enough color contrast here and there to give it brilliancy.

This is to be a great flower season in a millinery way, and violets seem to be a strong favorite, judging from the display that Reid & Co. are making. This spring's hats are many of them "loaded" in millinery parlance—very heavily covered with flowers and the contrast between the display window and the weather outside today was doubly striking on this account.

The Easter opening at Reid's continues all the remainder of the week. Miss O'Neil and her corps of assistants have prepared an alluring line and the drapings and decorations of the millinery parlors are in keeping with the stock. Many beautiful things from the shops of Chicago, Cleveland and Detroit are shown—pattern hats all of them, and all the hats have a dainty touch here and there that distinguishes them from the ordinary.

A Curiosity

We have displayed at our store an Easter egg six feet in circumference. It is actually worth seeing. We will sell genuine hand turned ladies' shoes at \$2.45 this week, fully worth \$3.00. F. L. Quatsoe, advertiser of facts.

The funeral of Mrs. Louis Gilbertson will be held Thursday at 2 p. m. from the home and at 2:30 from the Norwegian Lutheran church. An error was made in stating that she was Mr. Gilbertson's second wife. She was his first wife and leaves beside her husband two children.

"Elsa, At The Door," by Lilly Sutherland Woodruff, the popular ballad, recently put on the market in New York City, Chicago, Cincinnati, etc., has found high favor, and is fast becoming a favorite with the public. It was sung to the phonograph by a famous prima donna, at New York City, the records now being sent out to leading dealers every where. Leading soloists have written Mrs. Woodruff that it is a "hit" and always brings recalls, (its orchestration being used). Special at Sutherland's 25 cents, one-half off.

TOLEDO MAN WILL MANAGE CAR LINE

SUP'T GREEN HAS RESIGNED HIS POSITION.

Accepts One Involving Much Responsibility at Elkhart, Indiana—Will Leave Saturday of This Week—New Manager is an Expert Electrician and Well Informed.

After April 1, the Janesville Street Railway line will be under the management of George Hurd, of Toledo, Ohio. Fred O. Greene, who has acted as superintendent since last October 1, has handed in his resignation and it has been accepted.

On April 1, Mr. Greene will leave for Elkhart, Indiana, which city he will make his home, having accepted a responsible position there with Mark Cummings, who is now superintendent of an electric street car line running through Elkhart from Goshen and which is now being built to South Bend.

Mr. Greene has been a resident of Janesville two years, having come here from Cleveland, Ohio. During this time he has been employed on the local electric line and by hard and faithful services he was advanced to the position of superintendent when Mr. Cummings handed in his resignation to leave for Elkhart. Since the road has been in Superintendent Greene's charge, the entire line has been operated to the best advantage, the cars having operated through the winter on a paying basis. Mr. Greene has made many friends here, who regret his departure.

Mr. Hurd, who will soon assume charge of the road, is an expert electrician, having had several years experience in electric street railway service.

BROOM THIEVES IN BASTILE

Sent Here From Beloit for Twenty Days Each.

William Thomas and Thomas Clark, two wandering tramps, are now in the Rock county jail for twenty days each. They were arrested at Beloit.

Some time ago the officers were warned to be on the lookout for a thief named Martin, who burglarized a store in Plainfield a few weeks ago and then stole a horse and buggy in order to make his escape. The officers found their man in the "Willows" just across the state line, and while Officer Schiebel was lying in wait, two men passed carrying some brooms. A little later Officer Whipple appeared, and said that John Hauser, the veteran groceryman, had been robbed of some brooms, and they decided to raid the rendezvous.

The two thieves were easily taken into custody, but the brooms had been buried in the gravel, and it was necessary to dig them out of the dirt.

MRS. FRANK BRADEN'S DEATH

Daughter of Mr. and Mrs. Braden, of Janesville, died Monday evening, at her home in the town of Waukesha.

Cause of her demise was apoplexy. Besides a husband and daughter three sons are left to mourn the loss of a loving mother. Funeral services will be held from the home at Waukesha tomorrow morning at 11 o'clock and the interment will be at Waukesha.

FARMER SUES HIS TENANT

Local Legal Lights Had Law Suit At Milton Junction.

Attorneys E. F. Carpenter and T. S. Nolan appeared in Justice West's court at Milton Junction today, in the entitled action of Joseph Craig vs. Ira Bond.

The interested parties are residents of Rock county, residing near Milton Junction, the plaintiff being a farm owner and the defendant a tenant of his.

According to the complaint of the plaintiff, the defendant has been far from being a model man to run a farm for the plaintiff not only alleges that he allowed the farm to run slack at all times of the year, but that he even helped himself to things on the farm that did not belong to him and were a part of the place. The plaintiff claims \$200 damage. The defendant denies the charges made.

JEW TRAMP STRIKES TOWN

Police Say That Such a Wanderer Is Rare About Here.

This city has had the honor this week of being visited by a genuine tramp of Jewish descent.

Such an occurrence is a rarity in this city, the Jewish race seldom being represented among the Wandering Wilkes. To the police this Jew tramp stated that he was fifty-eight years of age and that he came here from Illinois in the hopes of securing some kind of employment, but that he found it hard to secure a job without a recommendation.

The new city lock-up for the past week has averaged fifteen prisoners each night the majority being tramps.

JAMES HOLMES IS DECLARED INSANE

IMAGINES THAT HE IS BEING PURSUED.

Deputy Brown Escorted the Unfortunate Man to the Hospital at Mendota Yesterday—This Is His Second Trip There Within the Past Two Years.

James Holmes, of the town of Plymouth, was taken to the state hospital for the insane at Mendota yesterday by Deputy Samuel Brown.

The prisoner was well aware of where he was going, for he was committed to this same institution two years ago for treatment.

He made no effort to give Deputy Brown trouble, but instead kept close by his side for fear something would happen to him.

Holmes has an idea that he is being hunted by persons who are bent on doing him harm and he has been in constant fear of late that some one would attack him.

During the past few weeks his condition has gradually grown more serious and relatives and friends deemed it wise to have an examination made. He was brought to this city yesterday and Dr. Whiting and Chittenden made the examination which resulted in their finding him of unsound mind.

Holmes is about thirty-eight years of age and was discharged from the Mendota hospital not many months ago.

LOCAL YOUTH IN TROUBLE

Arrested at Elgin and Fined Three Dollars and Costs.

According to the Elgin News, a certain Janesville youth has been getting into trouble in that city.

The News says:

Two Elgin girls and two youths—one from Rockford and the other from Janesville—were arrested this afternoon by Marshal Logan in the house at 225 Douglas avenue. Charges of disorderly conduct were preferred against them. They were fined \$3 and costs each.

WANTS OF CUBAN ASSEMBLY

Representatives of That Body in Washington.

THINK MORE MONEY NEEDED.

They Desire at Least \$10,000,000 from the United States—Sum Accepted by Gen. Gomez Is Declared to Be Quite Inadequate—To Prevent Brigandage.

Washington, March 29.—Jose R. Villalon and A. Hevia, who were appointed by the Cuban assembly to present to the Washington authorities the resolutions of that body, have arrived in this city. Their mission, in addition to the presentation of the resolutions, is to explain in detail the situation with reference to the insurgent army. They desire at least \$10,000,000 and as much more as can be obtained. They state that, while the assembly did not reject the \$3,000,000 which Gen. Gomez arranged with Robert P. Porter to receive and pay off the Cuban troops, they believed it to be entirely inadequate to meet the situation. They argue that if the Cuban army is disbanded after the distribution of but \$3,000,000, which would give to each enlisted man about \$68, the money so obtained would be barely sufficient for them to procure clothes and return to their homes, leaving them no margin upon which to enter upon the peaceful pursuits of life. Without the means of subsistence, Mr. Villalon says, disorders would almost inevitably follow, and perhaps brigandage.

The object of the United States and of the assembly, says Mr. Villalon, is to secure tranquillity in Cuba, preparatory to the setting up by the Cuban people of an independent government, and he says that it is, therefore, as much to the interest of the United States authorities as to those who immediately represent the Cuban patriots to see that the disbanded soldiers are given an opportunity to return to civil pursuits.

Jan MacLaren in a Wreck.
Leavenworth, Kan., March 29.—The Burlington passenger train from Kansas City was wrecked at East Leavenworth Tuesday by spreading rails. H. L. Harmon, general southwestern agent of the Burlington, received a few bruises about the head, but was not seriously injured, and A. T. Kruse of Halsted, Kan., and R. E. Crow of Kansas City were more or less hurt. brakeman G. W. Summers had his hand crushed. The Rev. John Watson (Jan MacLaren), who was on the train, was uninjured.

Vice President Hobart's Illness.
Washington, March 29.—Vice President Hobart is far from being a well man. He is better now than when he was in Thomasville, but is still suffering from the after effects of grip and is troubled with asthma to a distressing extent. His condition is serious, but not at all dangerous.

I have been afflicted with rheumatism for fourteen years and nothing seemed to give any relief. I was able to be around all the time, but constantly suffering. I had tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did, and was immediately relieved and in a short time cured. I am happy to say that it has not since returned.—Josh. Edgar, Germantown, Cal. For sale by Peoples' Drug Co.

Machias Is On Guatemala.
Washington, March 29.—The gunboat Machias has arrived at Livingston, Guatemala. Owing to the disturbed state of affairs in Guatemala and Honduras, it was deemed wise to have one of our warships at hand to look after American interests in case of emergency.

Rev. E. Edwards, pastor of the English Baptist church at Minersville, Pa., when suffering with rheumatism was advised to try Chamberlain's Pain Balm. He says: "A few applications of this liniment proved of great service to me. It subdued the inflammation and relieved the pain. Should any sufferer profit by giving Pain Balm a trial it will please me." For sale by People's Drug Co.

GEN. MILES TO SUM UP.

Is Going Before the Court of Inquiry Once More.

Washington, March 29.—Maj. Gen. Nelson A. Miles will be the last witness heard by the court of inquiry. The decision to give him the opportunity to reappear before the court and summarize his charges was agreed to at an executive session Tuesday. There is a possibility that the commanding general may be able to introduce his testimony as early as Saturday this week, so rapidly does the inquiry bid fair to progress. If plans do not miscarry, he certainly will be on the stand early next week. The general has not yet returned to Washington.

At its executive session the court decided to hear henceforth only the witnesses who assuredly could tell something new or throw additional light on issues under dispute. A large number of the witnesses proposed by Maj. Lee are excluded by the ruling. The counsel for Gen. Miles was allowed to participate in the conference, and, before its ending, was informed practically that he need not introduce any more evidence against canned roast beef, but had better devote himself to strengthening the charges relating to refrigerated beef. It is the admitted purpose of the court to get in all evidence as soon as possible and then devote several days to executive sessions for the preparation of its opinion.

Wisconsin Teachers Meet.
Stevens Point, Wis., March 29.—The attendance at the ninth annual convention of the Northwestern Wisconsin Teachers' association, in session here, is unusually large. Five hundred and seventy teachers from out of town registered with the railroad agent today and there are 200 other persons from the city and county schools.

Second Grand Opening...

Suits, Jackets, Capes, Silk Waists And Skirts.

Wednesday, March 29th.

Our opening last Friday was such an unqualified success that Mr. Lewis has offered to be with us one more day before Easter. He will have with him the well known line of "Beifeld" Garments for Ladies, and they will be offered for sale at a slight advance above wholesale cost.

The "Beifeld" Suits at \$10 are equal in workmanship to the best, however expensive, and in material and actual value better than most at double the price. The Jackets are lined throughout with satin, double stitched with percaline and interlined; made strictly in the fashion. Their line of Silk Waists is second to none manufactured in this country. Their Jackets, Capes and Skirts are too well known to the ladies of Janesville for us to comment on.

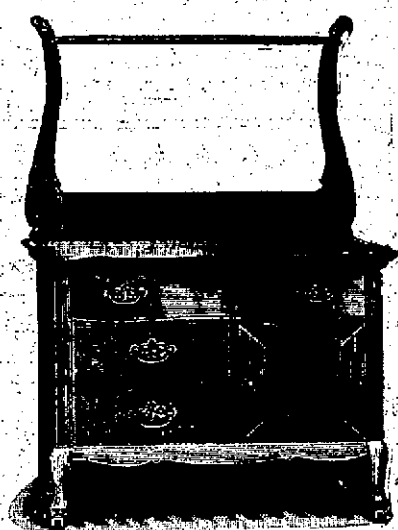

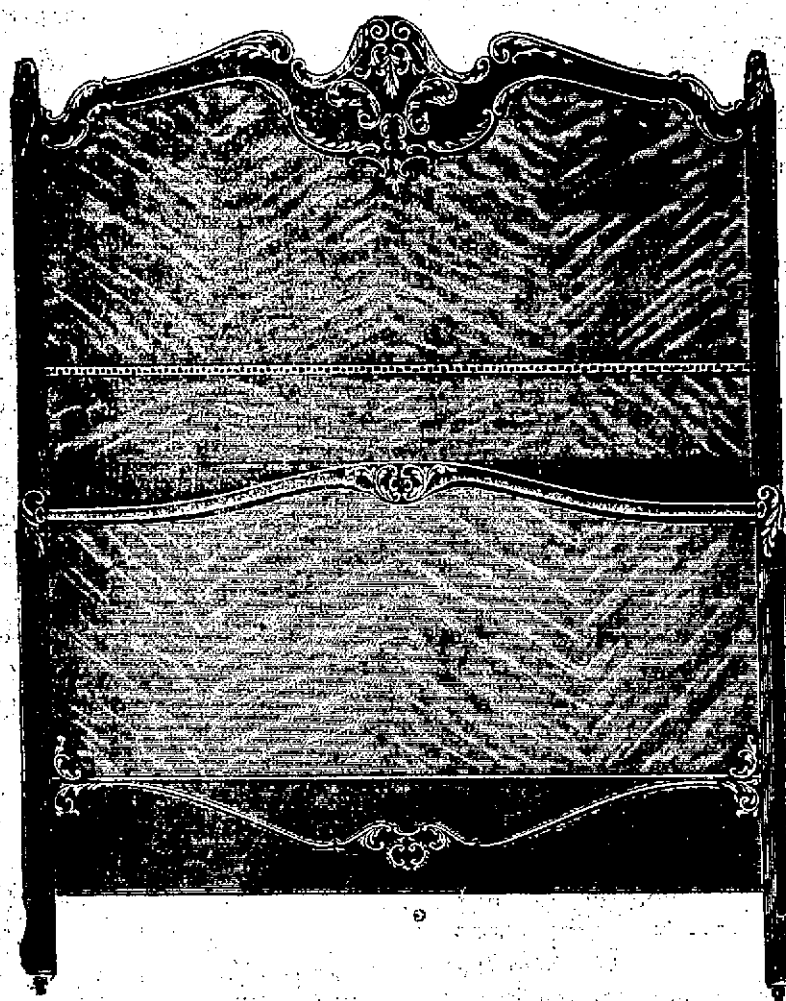

We will also show a large line of FUR COLLAR-ETTES in new shapes. You are cordially invited to inspect this immense line of Ladies' Garments—Wednesday, March 29th.
